a.	Total	1	0	0	0	1	1	0	1	1	2		7
b.	Ethnicity	** see below											

\* We can confirm that we do hold information falling within the description specified in your request. However, we have estimated that the cost of complying with your request would exceed the appropriate limit as set out in the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004.

The limit set down by the regulations for public authorities is £450, which amounts to a maximum of 18 hours of search and retrieval time charged at £25 per hour, the hourly rate also specified in the regulations.

We consider that it would take in excess of 18 hours to retrieve and extract the information as this would mean checking through individual documents for the information requested. Subsequently, it would cost more than £450, the limit specified in the regulations, to provide the information.

Under section 12 of the Freedom of Information Act 2000 we are therefore not obliged to provide the information that you have asked for unless the fee is paid and we will not be processing your request further unless we hear from you within 3 months.

However if you are able to refine the request that you have made then it may be that this would fall below the £450 limit as laid out under the regulations.

\*\* I can confirm the Trust holds the information requested, however, this information is exempt under s.40(2) of the Freedom of Information Act 2000. As a result of the low numbers involved there is a risk of the patient being identified. This is an absolute exemption and there is no need for the Trust to consider the public interest test.
