

Overseas Visitors Upfront Charging Tariff 2020/21

'When charges apply, a relevant body must make and recover charges from the person liable to pay for the services provided to the overseas visitor. From 23 October 2017 relevant bodies are required to recover these charges in full in advance of providing them, unless doing so would prevent or delay the provision of immediately necessary or urgent services. Care which is clinically considered non-urgent and can await the overseas visitor's leaving the UK must be paid for in full before it is provided.'

(Department of Health & Social Care, December 1998, Guidance on implementing the overseas Visitor charging regulations charging regulations).

Please note: Whilst every effort is made to accurately calculate the up-front charge at the time of the treatment, the Trust reserves the right to amend the charge once the full details of the treatment have concluded.

Changes in Overseas Patient Charges for EEA Patients

From the 1st January 2021, due to Brexit and changes in the UK Immigration Laws, EEA patients will be charged the same rate as non EEA patients, which is 150% of the Charging Tariff rate.
