

Directions to Orthopaedic Outpatients Centre

**James Paget
University Hospitals**
NHS Foundation Trust

There are 'drop-off' parking spaces close to the Orthopaedic Outpatients Centre.

- From the main entrance off the A47, instead of entering the main public car parks, follow the road round the side of the car parks and then bear right to take the one-way lane that runs directly in front of the hospital.
- Head towards the yellow building (the Louise Hamilton Centre) and then follow the road which runs around this building. As you reach our Community Diagnostic Centre on your left, follow the signs and turn left into the parking area, where there are 30 minute parking spaces for patient drop off as well as disabled parking facilities.
- If you are dropping off a patient, please then head back towards the main entrance off the A47, to park in the main hospital car parks.
