

Home advice for adult patients who have undergone a circumcision

James Paget
University Hospitals
NHS Foundation Trust

Author: Beverley Gray, Senior Sister, Day Care Unit

Following your minor operation:

- Keep the wound dry for 24 hours. If the dressing is still in place it can be removed in the shower or bath. Use ordinary soap and water to clean the wound.
- There may be some bruising around the wound. Any bruising or swelling usually reduces in a few days.
- You can start sexual relations within two to three weeks, when the wound is comfortable enough.
- You should be able to return to work as soon as you feel well enough, usually about a week.
- You can drive as soon as you can safely stop in an emergency.

For 24 hours following your general or local anaesthetic:

1. Do not drive a car, ride a bicycle or operate machinery
2. Do not lock the bathroom or toilet door
3. Do not make important decisions or sign documents
4. Do not drink alcohol
5. If there are any problems after you return home, please telephone your GP
6. It is important following surgery to remain as mobile as possible.

The Day Care Unit is open Monday to Friday from 0700 hours to 2200hrs. Should you have any concerns following your discharge home please do not hesitate to contact us on 01493 452022 or 01493 452029.

Out of these hours please contact NHS Direct on 111 or if you feel it is an emergency attend your local A&E department.

Feedback

We want your visit to be as comfortable as possible. Please talk to the person in charge if you have any concerns. If the ward/department staff are unable to resolve your concern, please ask for our Patient Advice and Liaison (PALS) information. Please be assured that raising a concern will not impact on your care. **Before you leave the hospital you will be asked to complete a Friends and Family Test feedback card.** Providing your feedback is vital in helping to transform NHS services and to support patient choice.

Trust Values
